

The National Weather Service Western Region

Welcomes

NOAA / WSWC Workshop on Seasonal Forecast Improvements

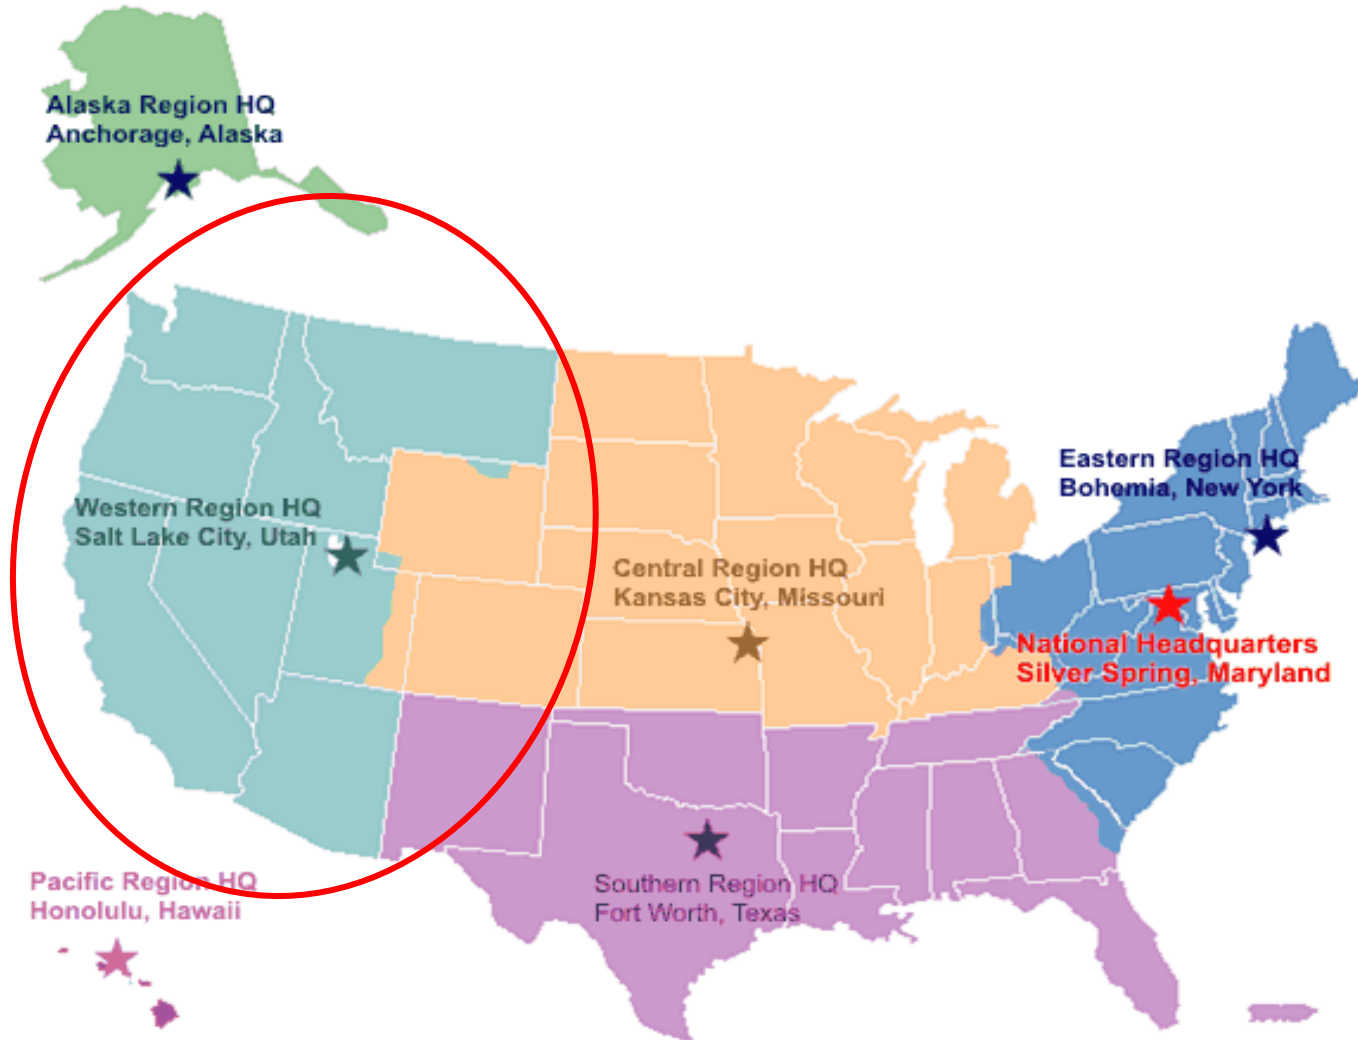

Grant Cooper, PhD
Director, NOAA/NWS Western Region

October 21, 2015

NWS Regions

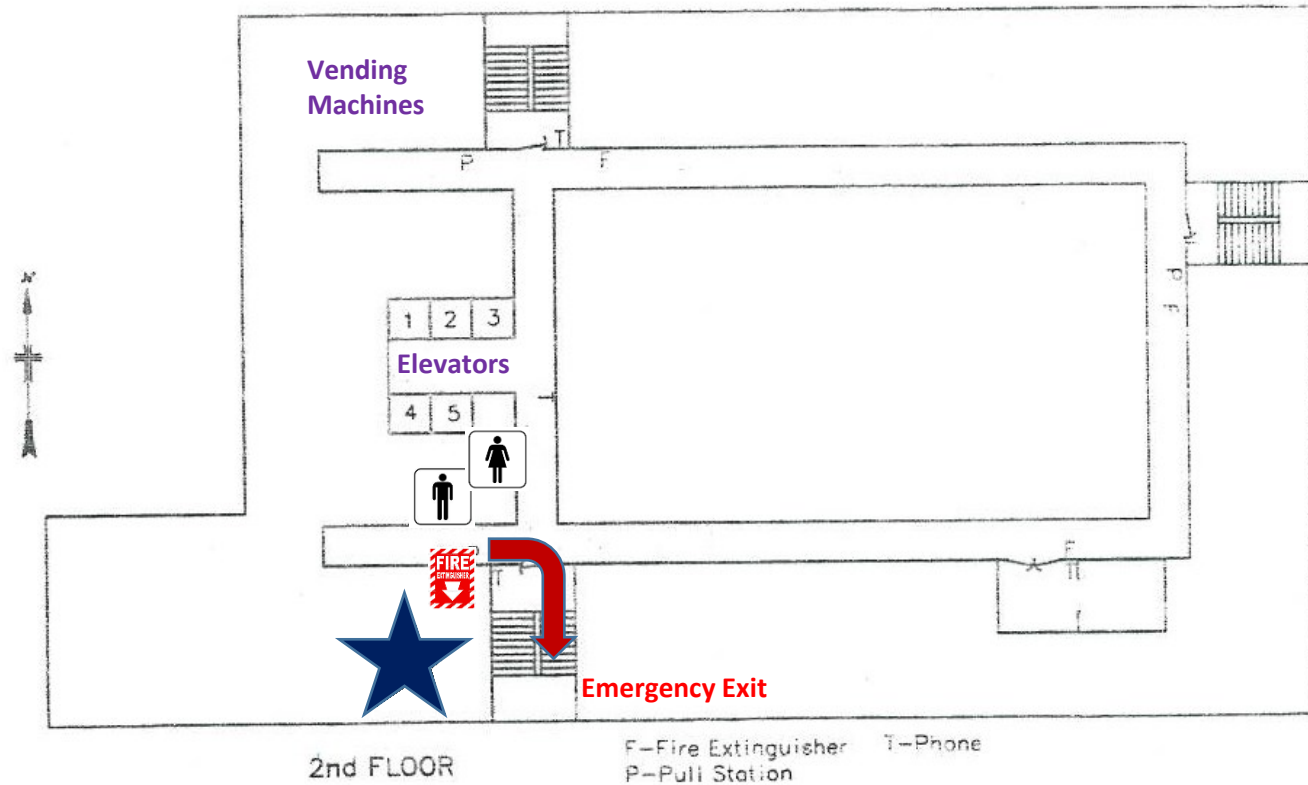

Unique Western Challenges

It's all about water in the West

- Too Much
 - Flash flooding
 - River flooding
 - Mudslides/debris flows
 - Winter storms
- Too Little
 - Water supply management
 - Drought
 - Wild fires
 - Dust storms
 - Heat

Federal Building Exits

Welcome !
