

IMPROVING ONLINE WATER USE REPORTING IN UTAH

**2018 WSWC WATER INFORMATION
MANAGEMENT SYSTEMS WORKSHOP**

WATER USE REPORTING IN UTAH

- **Three state agencies involved:
Water Rights, Water Resources, Drinking Water
USGS also provides funding and uses data**
- **Annual survey completed by water users**
- **At the beginning of the year, entities that have provided email address receive a Login ID and Login Key by email with link to online reporting site**
- **Entities without email or those who request it receive paper version of the form in the mail**
- **Online reporting strongly encouraged**

RECENT IMPROVEMENTS

2016

- **Reduced the number of reporting items for public water suppliers**
- **Staff changed from part-time engineering technician to one engineer and one full-time engineering technician**
- **Increased focus on meeting with reporting entities**

2017

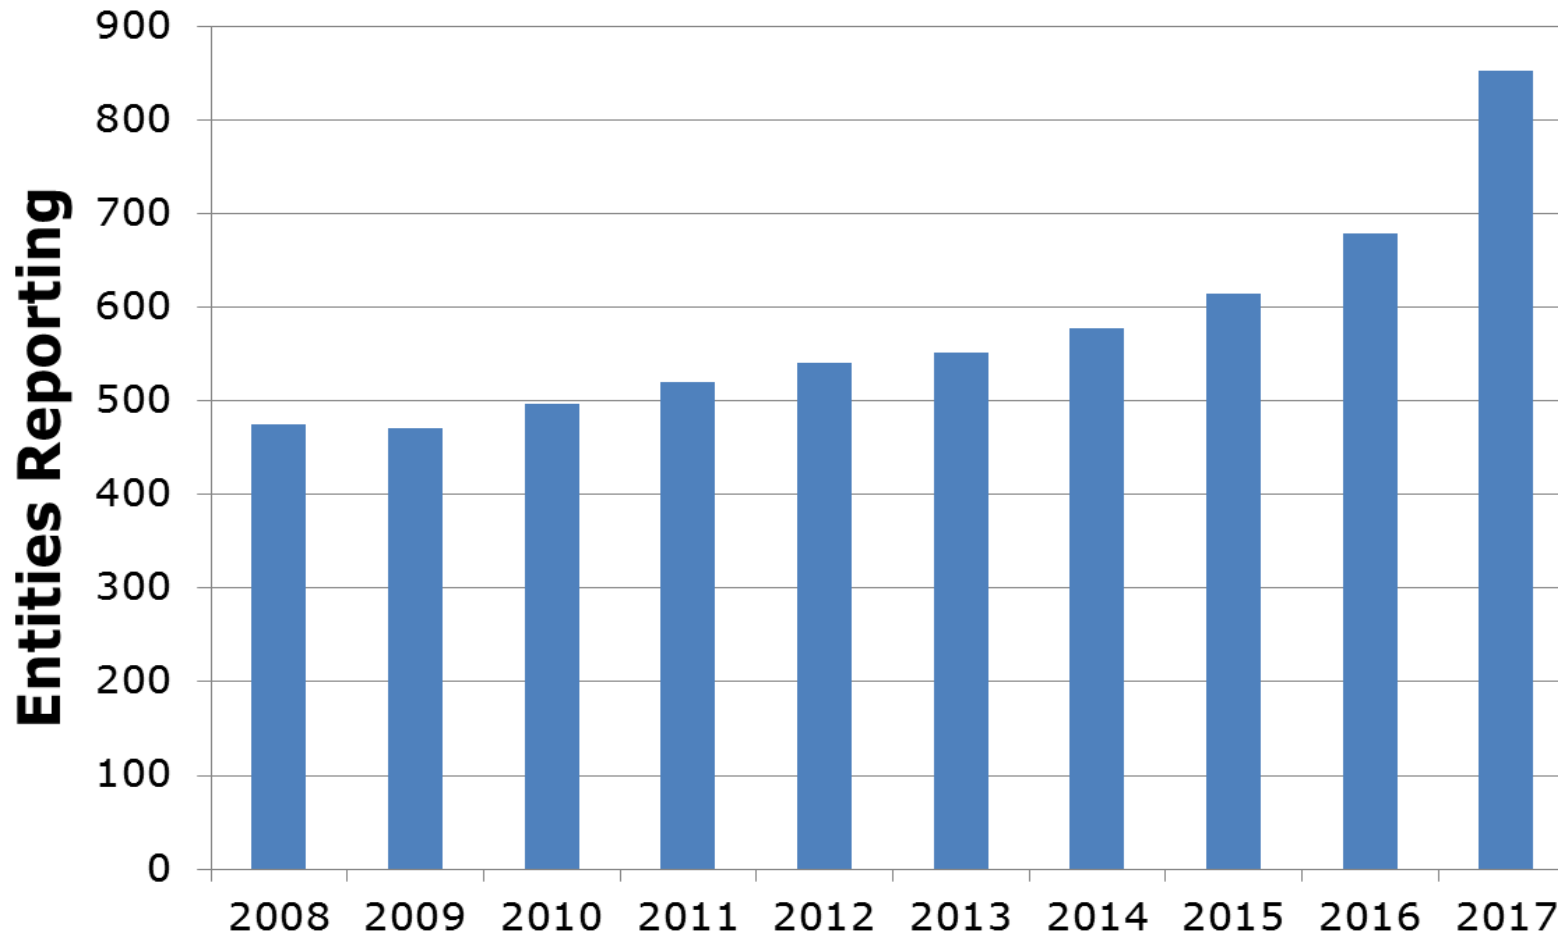

- **Hired full-time web programmer to overhaul online reporting system**
- **Staff met with all public water suppliers and many other reporting entities**

2018

- **New reporting web application released**

REPORTING STATISTICS

- **951 active entities for 2018**
